

Spring Symposium 2017
Schedule of Events

- 8:00 AM Registration / Breakfast
- 8:55 AM Opening Remarks
- 9:00 AM John Shabaker, BP Products North America
Emerging Challenges in Catalysis for Sustainable Production of Transport Fuels: An Industrial View
- 9:40 AM Laszlo Nemeth, University of Nevada Las Vegas
Science and Technology of Framework Metal-Containing Molecular Sieves Catalysts
- 10:20 AM Coffee Break
- 10:40 AM Mark Deimund, ExxonMobil Research and Engineering Company
Synthesis of Zincosilicate Catalysts for the Oligomerization of Propylene
- 11:20 AM C.Y. Chen, Chevron Energy Technology Company
Zeolite Catalysis with a Focus on Downstream Refining Applications
- 12:00 PM Lunch
- 1:20 PM Martin Johnson, Eli Lilly and Company
Continuous Reactors for Homogeneous Catalysis in Pharmaceutical Manufacturing
- 2:00 PM Maureen Tang, Drexel University
Mechanisms and Materials for Alkaline Hydrogen Electrocatalysis
- 2:40 PM Award Announcement
- 2:55 PM Coffee Break
- 3:15 PM Maura Koehle, University of Delaware
Production of *para*-methylstyrene and *para*-divinylbenzene from furanic compounds
- 3:35 PM Eranda Nikolla, Wayne State University
Design of complex metal/metal-oxide heterogeneous catalytic materials for energy and chemical conversion
- 4:15 PM Janos Szanyi, Pacific Northwest National Laboratory
The mechanism of CO₂ reduction over Pd/Al₂O₃: a combined steady state isotope transient kinetic analysis (SSITKA) and operando FTIR investigation
- 4:55 PM Closing Remarks
- 5:00 PM Conference Adjourns
