INVISTA

Catalysis Club of Philadelphia's Annual Student Poster Contest

This is the first call for posters for the Catalysis Club of Philadelphia's annual Student Poster Contest to be held Thursday, October 16th, 2014 at the Double Tree Hotel, 4727 Concord Pike (Rt. 202) in Wilmington, DE. To enter, please submit a short abstract of your proposed entry before September 28th, 2014, to:

Bingjun Xu

bxu@udel.edu

The competition is restricted to graduate students only. Post-docs are welcome to present their posters but are not eligible for prizes. All poster presenters should be listed as the first author, and will be guests of the Catalysis Club for the evening. As in past years Catalysis Club members and guests will cast their votes for favorite poster and a panel of industrial judges will select the 5 best posters from the top 10 posters. Total prizes award of \$550 will be distributed between the winners, \$150 will go to the overall winner and \$100 each to the 4 other winners. The one overall winner will be invited to present his or her work at the annual Catalysis Club symposium in Spring 2014.

The Catalysis Club of Philadelphia is very proud of this event and views it as one of the region's premier opportunities for graduate students to showcase their work with the local chemical industry professionals. All graduate students whose work is either directly or indirectly related to catalysis science and technology are encouraged to submit entries.
